THE BURLINGTON ROUTE. ENGINEERS INAUGURATE A STRIKE OVER THE ENTIRE SYSTEM.

Over Two Thousand Members of the Brotherhood of Locomotive Engineers Affected—All Traffic Completely Paralyzed. The Cause of the Difficulty.

CHICAGO, Feb. 28.—At 4 o'clock in the morning precisely switch engine No. 447 of the Chicago, Burlington & Quincy railroad went into the round house. Three others soon followed it, and the engineers and firemen quit work. The strike was on in earnest. All the switch engines started for the round house at 4 o'clock.

At 10:30 o'clock last night the last regular passenger train manned by a Brotherhood crew left the Union depot. The westbound Omaha limited express, which left Chicago at 1 o'clock Sunday afternoon, was stopped at Creston, Iowa. The 5:30 fast passenger, the "Get there, Eli," was also abandoned at Creston.

The through train from Denver was caught at McCook, Iowa, which was also the resting place of the westbound Denver express. The Kansas City, Hannibal & St. Joseph passenger trains will probably arrive in Chicago on time. The 12 o'clock express which left yesterday, will stop at Creston.

The Burlington strikers will not affect the switching business at the stock yards to any great extent. Yesterday a telegram was received at the switching house stating that if needed, pilots would be placed on the Burlington engines to instruct the new men who take the strikers' places.

To suburban points there will be only four trains each way where they have been seventeen. The first of these trains arrived at 7:45 this morning. The four engineers are not members of the Brotherhood, but men who could be picked up in a hurry. In default of a fireman, Assistant Superintendent L. A. Howland donned the blue overalls and went to shoveling coal into the hungry stomach of a suburban engine in good old fashioned style.

"Any engineer or fireman who is promoted to an engineer's job," said General Passenger Agent Morton Sunday, "who applies for and secures work will, if competent, be retained, no matter how the strike may be settled. I am aware that this promise is always made and very often broken, but it will be strictly lived up to on this occasion. The public may rest assured that all passenger trains sent out from any station on the whole Burlington system will be manned by first-class men. Until we can find such men all passenger trains will be abandoned. We shall, of course, concentrate all our efforts upon the passenger service, but cannot expect to be very successful for a few days. The strike came upon us almost unannounced, and the traveling public must expect to bear some of the burden."

Mr. Morton states that a special effort will be made to equip this department of the passenger service and expects all the suburban trains will be running in a few days.

Fourteen engineers from the Reading railway, arrived here Sunday evening and applied for work on the Chicago, Burlington & Quincy. Superintendent J. D. Bessler accepted their applications at once, supplied them with signal books, and took them to Aurora, where they will be put at work.

An engineer who has grown gray in the service of the company, last night, in reply to the question, "What particular mode of warfare will the Brotherhood adopt?" replied:

"In the first place, we propose to ask all new men who are put in our places to give up the job. If that doesn't influence them we will offer the same wages as the road pays, or, if necessary, more. If money is what the new men want we will pay them, just as much as the railroad will pay."

"And if that doesn't fetch 'em," interrupted a fireman, "I guess we can get a yoke of oxen and a rope and drag them out of their boxes."

"Shut up there, will you," commanded the old veteran, who seemed to be the spokesman for the crowd. "We don't propose to drag anybody out of his cab, but the non-unionist who runs my engine will find that he will be boycotted everywhere he goes. None of the boarding houses where Brotherhood men board will feed them, and they can not get any liquor from saloons where we drink. If they can find a place in Aurora where they can buy anything, or where they can sleep, I don't know where it is. The Brotherhood will have to furnish them with tents and buy grub here in Chicago and take it out there. The brakemen say they will not brake for those who take our places, and the switchmen swear they won't switch a truck as long as such men run over the line. Oh, we mean business, we do; and the railroad people will find it out before we get through with them. Not only that, but if any of the other roads go to furnishing the Chicago, Burlington & Quincy with engineers or firemen they, too, will have a strike on their hands."

The Chicago, Burlington & Quincy is the only road that has access into the lumber district, but having no engineers on their engines an attempt was made to have a Chicago & Eastern Illinois engineer switch his train into the lumber district. He refused on the ground that it was switching for the Chicago, Burlington & Quincy, and no further attempt had been made up to noon to switch into the lumber district.

The great building on corner of Adams and Franklin streets occupied by the Chicago, Burlington & Quincy Railroad company was besieged early this morning by a large number of men, whose objective point seemed to be the office of the general superintendent, and their mission to secure employment as engineers in place of the strikers. At 10 o'clock when a United Press reporter left the building not less than fifty men were gathered in the corridor awaiting their turn for an interview.

The cause of the strike is the refusal of the railroad officials to agree to a uniform scale of wages for new and old engineers and firemen. Under the old plan engineers' wages were gradually advanced as they became experienced in the service, and there was a disposition becoming apparent among the officials of some roads, including the Chicago, Burlington & Quincy, to get rid of old engineers and employ green men in order to

save the difference in wages. This scheme was vitally opposed to the interests of the Brotherhood, which includes most of the old and capable engineers of the country, and a grievance committee was sent to the offending roads with a request to even up the wages of new and old men to do away with this evil. All the roads granted the request except the Chicago, Burlington & Quincy. Hence the strike.

The Situation at Galesburg.

PEORIA, Ill., Feb. 28.—The Evening Journal special from Galesburg, Ill., says: The engineers' and firemen's strike causes great excitement here. At 8 o'clock this morning, over seventy engines were side-tracked or in the round house here. Trains from all directions reaching here after 4 o'clock were abandoned. The switch yards are filled with passenger coaches and freight cars. At 6:15 a. m., No. 3, for Quincy, left with Engineer J. N. Peterson, a Brotherhood man in the cab. The Brotherhood men tried to dissuade him. At 7 o'clock the passenger waiting rooms were full. Many Brotherhood men were at the depot and no train left the depot after No. 8 until 9 o'clock, when No. 2 for Chicago pulled out, manned by John Grassley, engineer, M. J. Steinhilber, fireman. Grassley is master mechanic at Buda.

The fast mail from Chicago was twenty minutes late. It left Chicago on time and was not delayed at Aurora. It was pulled into Galesburg by Engineer James Carroll, and delayed here over two hours. The Brotherhood men wanted a command from the United States authorities. Deputy Postmaster Malick issued an order, but an engineer could not be found. It finally left with W. C. Brown, master mechanic of the Iowa division, at the throttle, and Jim Working, yardmaster at Burlington, as fireman. Brown and Working had pulled No. 6 from Burlington. Number 6 left with Scott Dewey, engineer, and Fred Pangborn, fireman. The Brotherhood men hissed as Dewey grabbed the lever.

The division officials had a busy morning. The Burlington have men they say to run if necessary. Roadmaster Lindsey says he can pull a throttle, and strikers may expect to see every master mechanic on the road in the cab before the company gives in. Large crowds of excited citizens have thronged the depot platform since morning. The Brotherhood have held several meetings and the members appear confident. Ralph Lacey, head of the Fireman's Brotherhood here, says that the boys have a sure thing. Both sides are confident.

How the Knights Stand.

CHICAGO, Feb. 28.—It is reported on excellent authority that General Master Workman Powderly arrived in the city an early hour this morning, and proceeded to the Grand Pacific where he held a prolonged interview Chief Arthur. Later they called upon Mr. Stone and after a short interview returned to be hotel. Powderly's name does not appear upon the register, but the clerks will not deny that he is in the house. A prominent official of the knights is responsible for the assertion that there is no feeling between that organization and the Brotherhood, and that the knights in the employ of the Burlington will go out to a man if ordered. This statement is significant in view of the fact that the Burlington had been anticipating recruits from the ranks of the striking Reading knights.

Advertising for Engineers.

NEW YORK, Feb. 28.—The agents of the Chicago, Burlington & Quincy railway has advertisements in all the morning papers for locomotive engineers. The advertisement says permanent places are guaranteed, but only those willing to take the places of Brotherhood men need apply. Up to noon Agent Hamilton had received twenty-five applications, but he was unable to say how many of them he would accept.

Four Thousand Men to Be Discharged.

BRADDOCK, Pa., Feb. 28.—Furnaces F and G, at the Edgar Thompson steel works (Carnegie's), were banked to-day. Manager Jones stated that the company has withdrawn all overtures to their employees, and that all, about four thousand in number, will be discharged.

Puddlers Strike.

LANCASTER, Pa., Feb. 28.—The puddlers of the Columbia rolling mill at Columbia, struck this morning. A reduction of twenty-five cents per ton was to have gone into effect to-day. Three hundred men are now idle.

WILLIAM B. TASCOTT.

Various Reports Concerning Millionaire Snell's Alleged Murderer.

OMAHA, Neb., Feb. 28.—Detective Moynihan still claims that he is satisfied that W. B. Tascott was in Omaha Monday evening, and that he saw him in a crowd of people leaving the Eden museum. John Ward, a street car driver, who followed the same business in Chicago years ago, and drove on the line that passed the Tascott residence, and who knew the young assassin quite well, said yesterday that he saw him here last Tuesday. About that time the police were keeping a close lookout, and if the murderer was in Omaha he did not tarry long. It is believed that he left here on the Union Pacific Tuesday at noon.

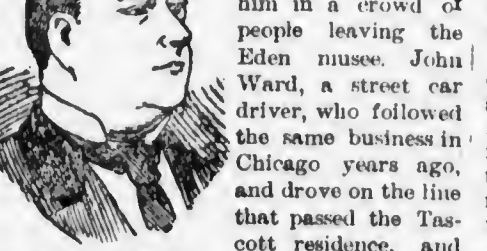

Believed to be in China.

WINNEPEG, Man., Feb. 28.—W. B. Tascott, the murderer of Millionaire Snell, of Chicago, it is stated here, arrived in Winnipeg from the south about February 12, and stayed here a day or so at one of the hotels under the name of Gathright. He went west from here, and is believed to have taken passage in a ship to China from Vancouver.

Yachting in Bermuda.

Wife (on board a small yacht, tacking against a head wind)—Ah, how delightfully exciting this is. Every time the boat tacks I feel a thrill of superb pleasure all through my veins.

Husband (gloomily)—Yes, my dear; very nice. You are not paying for this boat by the hour, I think.—New York World.

RANDOLPH CHURCHILL.

RUMORS THAT HE MAY BE ASKED TO RE-ENTER THE ENGLISH CABINET.

Many Consider Him no Statesman, Yet He Cannot Be Ignored—The Tory Attempt a Failure—Russian Negotiations With France—Other European News.

LONDON, Feb. 28.—Since Lord Randolph Churchill's speech to the Oxford union last week, rumors have been more than ever rife that he will shortly be invited to re-enter the cabinet, and there are certainly indications that the reports are founded upon something more tangible than from mere speculation.

Although the number of persons, Tory and Liberal alike, who believe that the Paddington member's statesmanship is on a level with a bricklayer's ability to make a watch, is very large, his sheet iron thunder and red fire methods, together with his recent success in St. Petersburg, where he was shown the highest official and social consideration, count mightily in his favor, and compel the adherence of a following which the government cannot well ignore.

Prior to Lord Randolph's visit to Russia such rumors concerning his return to office as are now prevalent were dismissed with derisive laughter, but the revival at this time fails to provoke the expressions of merriment then so freely indulged in. What this erratic descendant of John Churchill lacks in the higher branches of statesmanship is made up to him four-fold in impudence of rare quality. His speech last week was nothing, if not a bid for a cabinet position, and the chances are two to one that he will get it.

The attempt of the Tories to impress the country with the belief that the result of the election at Doncaster was brought about by Mr. Gladstone's apology for the plan of campaign, has failed utterly. Everybody understands that Mr. Gladstone has not justified the plan of campaign further than to express his conviction that it was conceived and put into operation with a view of warding off a greater evil, and the Yorkshire electors were probably influenced in casting their votes, quite as little by the attitude of Mr. Gladstone toward the plan of campaign, as they were by the views of the king of Dahomey on the Bulgarian question.

A great deal of curiosity is manifested to observe the working of the new rules of procedure which go into effect to-day. The consensus of opinion is that they fail to improve the situation as far as the majority is concerned, while they impose no hardship upon the opposition that they were not liable to experience under the rules in force during the latter part of last session.

Russia's Stumbling Block.

SOFIA, Feb. 27.—If the concerted powers declare Prince Ferdinand's rule over Bulgaria illegal, and demand that he abdicate, the prince will relinquish his power, but will remain in Bulgaria to await the result of an election, expecting to be returned to the throne.

There is no doubt that a large majority in Bulgaria is prepared to maintain Ferdinand on the throne at all hazards, since they perceive in his dethronement the probable loss of the virtual independence as a nation which that principality now enjoys. The Bulgarians themselves are Russia's great stumbling block in the way of effecting her purposes by negotiation. Three years ago there was quite a large Russian party in Bulgaria, which has now dwindled into insignificance. However, the czar is doing the best he can with what remains, to stir up, through his agents, an opposition, and, if possible, of course, rebellion against the government. Inducements, pecuniary and otherwise, are being held out to secure a Russian following.

It is not alone the settlement of European affairs that are now involved, but the colonization schemes of the several nations in Africa are dependent upon its results.

Russia's Negotiations With France.

VINNA, Feb. 28.—Regarding the Russo-French alliance, it is reported that the treaty advances to a conclusion. M. Floquet has written a letter to a high St. Petersburg official affirming the desire of the Republican majority to obtain a perfect entente cordial with Russia. The letter was shown to the czar, and elicited instructions to Baron von Mohrenheim, the Russian ambassador at Paris, to negotiate a treaty if M. Floquet's representations were accurate.

It will be of the first importance to Russia to secure an understanding with France, something which she can pretty safely count upon in view of the anti-German spirit which prevails. The voice of France is undoubtedly for war when the opportunity offers, and no government can resist it. Negotiations progress with no expected outcome but war. The allies will not consent to an armed occupation of Bulgaria by Russia, and that is her only means of effecting her purpose. Meanwhile, with her entire standing army on the frontier, she is massing reserves along her second line of interior defense.

England on the Lookout.

PARIS, Feb. 28.—Le Temps says that England is negotiating with Turkey for possession of an island commanding the entrance to the Hellespont, at Salonica, in return for which she guarantees to the sultan undisturbed possession of Constantinople with the districts immediately lying upon the Hellespont and the Bosphorus, and all of the Asiatic provinces at present included in the possessions of the porte.

As Salonica is over two hundred miles from the entrance to the Hellespont, the Le Temps has stretched its imagination. The powers would all kick against such an important acquisition by England, and if she be bargaining with Turkey for it the negotiations would be kept secret. It is, however, not improbable.

Russian Suggestions Rejected.

CONSTANTINOPLE, Feb. 28.—It is stated that the porte has rejected Russia's suggestion that Turkish troops occupy Bulgaria.

The Turk has shown great diplomatic ability in the past in order to remain in Europe this long, and now it appears that the porte recognizes the fact that Turkey has no further interest in Bulgaria than to try and make it strong principally as a buffer against

Russian encroachment. Bulgaria is Russia's and Europe's chestnut, and the sultan does not propose that his paw shall be employed to take it out of the fire.

Fire in Tonquin, Anam.

LONDON, Feb. 28.—Advices from Tonquin state that the public stores, a warehouse, a factory, several timber yards and 500 houses have been destroyed by fire in the artisan's quarter of the city. Ten natives and one European were killed.

Avalanche in Italy.

ROME, Feb. 28.—The village of Valtorta, a little place in the north of Italy, is half buried under an avalanche, which has occurred there. Numbers of houses are wrecked, and many people lie buried under the ruins. Troops from Bergamo, who were sent to the rescue of the inhabitants, are doing all they can to aid the survivors to disinter the victims of the disaster. Twenty-three corpses have already been taken out of the buried portion. Some have been recovered alive, though badly injured.

Foreign Notes.

A panic occurred in a Jewish synagogue in Warsaw, caused by an alarm of fire. Four women were killed and sixteen others seriously injured.

Mr. McLane, American minister in Paris, gave a diplomatic dinner in honor of M. Floquet, the president of the chamber of deputies. Owing to indisposition M. Floquet was unable to be present.

Neither England, Austria nor Italy supported the proposal submitted to the porte Saturday by M. Neidoff, the Russian ambassador. The grand vizier, owing to M. Neidoff's pressure, has decided to reject the Bulgarian proposals for a reasonable customs tariff.

The Republicans are arranging to start an afternoon daily paper at Lexington to boom their city ticket.

The selection of St. Louis as the place of the next Democratic National Convention seems to give general satisfaction.

If Blaine really means it and is out of the race, his party is left without a leader just as it is getting ready for the fight.

There are ample funds on deposit in the banks of this city to give Maysville a good boom and place on solid footing a number of industries. Will it be done?

A vote will be taken in Bath County on the first Saturday of next June on a proposition to prohibit the sale of intoxicating liquors. The temperance people have commenced an active campaign.

The project of piping natural gas from Eastern Kentucky down the river to Cincinnati has lately been revived. A company with a capital of \$3,000,000 will undertake the task, it is now reported, if the supply is sufficient.

John P. Irish writes from San Francisco to the North American that the people of the Pacific slope are pleased with Cleveland's message and prefer that to the views of Mr. Blaine. It looks like the Democrats will sweep the country with Grover as their leader.

A negro died at Richmond the other day who was a notable exception to the general run of colored people. At the age of twelve, he was a slave. Having effected an understanding with his mistress he went to work and bought his freedom for \$800. He then bought his wife's freedom for a like sum, and afterwards paid \$4,500 for his children. But this was not all for he died the owner of an estate worth \$20,000. He undoubtedly deserved a prominent place among that class of people known as "hustlers" and has furnished a striking example of what may be accomplished by "grit," perseverance and industry.

There is one "Pennsylvania ironmaster and coal baron" who is an enthusiastic revenue reformer, and he is a power in his land. His name is Colonel W. S. Thomas, and he is the millionaire who has invested largely in the undeveloped mineral portions of Kentucky and Tennessee. "Colonel Thomas is an earnest leader of the movement in Philadelphia," says the New York World, "for revenue reform, a movement which not long ago filled the great Academy of Music with Democrats anxious to put their State in line with the party, the President and the World on the tariff issue. In spite of the hostility of Mr. Randall's friends, Colonel Thomas is seated as a delegate to the National Convention, and presents the singular spectacle of a Pennsylvania ironmaster and coal baron who holds up the hands of the President in his battle for the relief of the overtaxed people and takes the side of the oppressed wage-workers in their struggle against corporate greed."

Rowan to be Abolished.

A Frankfort special to the Courier-Journal says the Legislative Committee that has been investigating affairs at Morehead will unanimously recommend that Rowan County be abolished. As to the charges against Judge Cole, the committee has not yet arrived at any understanding.

Religious Notes.

Rev. J. D. Redd filled Rev. J. H. Walker's pulpit at Cynthiana last Sunday.

The Kentucky State Sunday School Convention will be held at Winchester this year.

Rev. George B. Poage, of Brooksville, preached at Old Stone Church and M. E. Church South, at Washington, last Sunday.

Rev. G. M. Fulton, of Aberdeen, has been engaged in a protracted meeting at Ebenezer Church five or six miles north of that town, which resulted in about twenty-five additions.

Rev. F. S. Pollitt is assisting Rev. Rector Savage in a big revival in the Eleventh Street M. E. Church, South, at Covington. There had been fifty-five conversions and twenty-eight accessions Saturday.

Rev. Joseph M. Evans and Rev. J. H. Hopper are conducting an interesting protracted meeting in the Presbyterian Church at Jeffersonville. Much interest has been manifested in the meeting and a number of additions have been made to the church. The revival will last this week.

MASON COUNTY SCHOOLS.

Notes and Comments by Superintendent Galbraith on the Teachers, Pupils and Buildings.

NO. 42, LIMESTONE.

Census report of pupils: Number on roll, 40; average attendance, 23.

The school house is not in good repair and the out-buildings are particularly defective.

The trustees are W. G. Sherwood, C. F. Reed and Wm. Newell. "Mr. Sherwood and Mr. Reed have been very attentive to the school." The patrons have not manifested much interest in the school. The school had the following visitors: Mrs. Sherwood, Mrs. Clarkson, Mrs. E. H. Reed, Mrs. J. W. Downing, and Misses Bettie King, Lucy Bateman, Fannie Scott, Ella Downing, Tillie Brodt and Mattie Willett.

Miss Anna L. Fristoe taught this school. She made use of the teachers' library, and uses written work in geography, grammar, reading and spelling classes. She writes: "I have not accomplished as much this year in my work as I desired, on account in a great measure of the want of proper text books." This complaint comes up from many schools. It is almost incredible, but yet true, that patrons to save the trifling expense, neglect to provide proper books. It is like economizing by starving the children, for it is starving them mentally. Miss Fristoe in closing her report, which is a good one, says: "There ought to be money raised in the district to buy new furniture and repair the school buildings."

NO. 58, KEYS.

Pupils on census report: Number enrolled, 36; average attendance, 20.

The trustees are Jas. Keys, Bela Metcalf and Wm. Rice. Mr. Keys has visited the school. Of the patrons Mrs. Jas. Keys and Mr. B. F. Coburn visited the school.

There is no school house in the district, and the school was taught in a tenant house furnished by Mr. Jas. Keys. Miss Ida Mayhugh, a pupil of the Danville, Ind., Normal, taught this school. She is a most diligent teacher, studious of new things to keep up the interest of her pupils. She takes an educational journal, and uses the teachers' library. She writes: "Written work is used in nearly all classes in the school." Compositions or letters are required on alternative Fridays. Miss Mayhugh also uses the plan of reading a short story, which the pupils are required to reproduce in writing, after she has carefully read it to them. She reports excellent advancement in the classes in U. S. history, reading, grammar and geography. The great trouble has been the want of a new school house which is badly needed.

OUR NEIGHBORS.

HELENA.

Sandy Collins, one of the oldest men in Mason County, has located at this place. He is 83 years old, and lives as a cricketer.

Titles of the Shah.

The shah certainly has his goodly share of that peculiar conceit that goes largely to make up the oriental despot, and he has well defined and rather good sized ideas as to what is due him and his rank. He has quite a stock of titles and forms of address, such as shah, shahinshah (king of kings), khakan (a kadjar title), padishah, alahaczret (majesty), which latter is the formal appellation that he goes by. The usual phrases in addressing him, however, are: "Kaebleh atlm" (point toward which the earth inclines), and "Kurban Shalwem" (may I become your sacrifice). It is not customary to address the shah in any more direct manner; but if, in the course of a conversation, it cannot possibly be avoided, he is not spoken to as "ahoma" (you), which is the common form of address in polite Persian but as "to" (thou). In his intercourse with European diplomats the French *votre* majeste is employed, being at once interpreted by the dragoman into one of the above Persian phrases, and in addressing him in writing he is spoken to and of as *votre* majeste Imperial.—Cosmopolitan.

The Grocer and the Flies.

A Chattanooga grocer, being greatly troubled by flies, put twenty-one sheets of sticky fly paper about his store. In the evening he gathered them up, and noticed how much heavier they were, being covered with flies. He weighed the twenty-one sheets and found they weighed seven pounds. Then he put twenty-one fresh sheets on the scales and they weighed four pounds and four ounces. Thus the flies weighed two pounds twelve ounces. He found that there were twenty flies to each square inch of the fly paper; each sheet had 500 square inches and 6,720 flies, and the twenty-one sheets had 141,120 flies. This one tiny insect, the weight of a fly, for, if 141,120 flies weigh two pounds twelve ounces, it's easy to calculate what one will weigh.—New York Sun.

CHATTANOOGA COPS.

They Use Their Pistols With Fatal Effect on an Inoffensive Boy.

CHATTANOOGA, Tenn., Feb. 28.—This morning at 2 o'clock Wesley Willis was returning to his home on Whiteside street, at the extreme southern end of the city. He had been at a dance on King street, and just before he entered his home Albert Reed jumped on him and provoked a fight. Willis struck Reed twice in the face with his fist in self-defense when a friend of Reed called the police.

Officers Bates, Payne and Allen responded, and when they were approaching Willis started to run. The officers shot at him seven times, one ball making an ugly wound in the left thigh and another entering the back and passing through his body, barely missing his heart. Willis is lying at home in a critical condition, and City Physician Gaston says he will die. The shooting was entirely unprovoked and every effort has been made by the police to keep the facts from the public. Willis is a boy only nineteen years of age, and is an excellent young man.

End of the Bicycle Race.

PHILADELPHIA, Feb. 28.—The seventy-two hour bicycle race, twelve hours a day, ended at 11 o'clock Saturday night. The score is as follows: Dingley, 900 miles, 4 laps; Knapp, 893 miles, 5 laps; Hollingsworth, 885 miles, 3 laps; McDowell, 838 miles, 1 lap; Rhodes, 740 miles, 1 lap; Ashinger, 690 miles, 2 laps; Whitaker, 328 miles, 8 laps; Neilson, 277 miles, 1 lap; Crocker, 204 miles, 9 laps.

Postoffice Burglarized.

COLUMBIA CITY, Ind., Feb. 28.—Saturday night the postoffice at this place was burglarized by sawing out the lock of the rear door. The thieves blew the safe with dynamite, breaking the door to pieces, some of them flying to the street. They got \$75 in money and nearly \$300 in valuable letters and stamps.

Accident in a Sewer Trench.

WARREN, O., Feb. 28.—Ex-Postmaster Haggood descended a trench, Saturday afternoon, to instruct the laborers where to locate a sewer connection, when a huge mass of earth fell upon them, fatally injuring Haggood, who was rescued more dead than alive, and killing Simon Warren outright.

Cardinal Gibbons to Take a Trip.

BALTIMORE, Feb. 28.—It is the intention of Cardinal Gibbons to take a trip north next week, leaving here on March 5. He will be in Boston on March 9, and will be present at the dedication of the new St. Patrick's church in that city. The cardinal will visit other cities in New England.

Three \$500,000 Suits.

PHILADELPHIA, Feb. 28.—Sumner Work, George A. Work and Shreve Ackley, of the banking firm of Work & Company, have sued ex-President Charles J. Harrish, of the People's Passenger Railway company, and Thomas C. Musgrave for \$500,000 damages, and the Messrs. Work have each instituted individual suits against Mr. Harrish for \$500,000 damages for malicious prosecution, sixteen criminal charges, upon which the Messrs. Work were tried and acquitted in the court of quarter sessions. The whole affair is an outgrowth of the litigation which followed the transfer of the People's line from Work & Company to Messrs. Harrish and Musgrave.

An Example of Chinese Justice.

SAN FRANCISCO, Feb. 28.—The China mail brings details of a remarkable tragedy in a Buddhist monastery near Canton. Two monks assaulted two beautiful young women who were among the applicants for membership of the order. The screams of the women prompted assistance. They resisted and attacked the abbot with knives. For this double offense they were burned alive, being bound hand and foot and thrust into the crematory of the monastery in the presence of the brethren and a crowd of spectators. The affair was conducted with religious solemnity.

Must Reduce Rates or Close.

YOUNGSTOWN, O., Feb. 28.—Furnace owners here have been notified by coke manufacturers that commencing March 1 there would be a reduction of twenty-five cents per ton, and furnace men have notified the railroads that unless there is a corresponding reduction in freight rates all the furnaces in the Mahoning valley will shut down, as it will not pay to run them.

Dropped Dead at a Funeral.

UTICA, N. Y., Feb. 28.—John A. Flanagan, city editor of the Observer, dropped dead while reporting a funeral this morning. He was one of the most popular and best known men in this section. He was forty-seven years of age.

THE HUNTINGTON BRIDGE.

Work on the Piers to be Resumed This Week, and the Superstructure to be Commenced Soon.

In a recent interview with the Covington Commonwealth, Civil Engineer Randolph, of the Kentucky Central Railroad, says active preparations have been in progress some time looking to a general resumption of work on the Huntington bridge at Cincinnati. The work on the piers he thought would be resumed this week.

The massive castings and wrought iron pieces for the superstructure are rapidly arriving at Covington. By the 1st of March the operations of putting up the superstructure will be commenced and trains will run into the G and Central Depot by January 1st next.

The entire width of the bridge will be 70 feet from "out to out," says the Commonwealth. In the center directly over the piers is the roadway, thirty feet wide, for two tracks for the steam cars. On each side of this is a solid wall filled in so that horses can not get even a glimpse of passing trains, steam or smoke.

On each side of the central roadway is a narrower roadway for wagons, each twelve feet nine inches wide, and on these will probably be placed the street car tracks. Outside the latter are the walks for foot passengers, each five feet nine inches wide. These foot walks are carried by large braces or arms extending from the lower and central part of the bridge. It is these narrow passages which will undoubtedly cut an important figure in the question of cheap and rapid transportation across the river. When sounded for his views on this point Mr. Randolph suggested that the extra cost on these four outside passages would not be very great and almost all got out of them would be clear gain, as the bridge was built for the railroad tracks. He had no idea what Mr. Huntington's policy would be, but he was satisfied it would cause a decided shaking up in the bridge and ferry business at that point. It is known in certain circles, adds the Commonwealth, that a syndicate of capitalists is crystallizing, with a view to establishing either an electric or cable line across the new bridge.

The Coming Conclave.

Maysville Commandery No. 10, K. T., is making all preparations to entertain the Grand Commandery of the State on an extensive scale at the annual conclave of that body to be held in this city on the 9th of next May. A large attendance is expected, and as the "5-15-22" Commandery never does anything by halves a big time can be counted on.

Funds have already been subscribed to pay all expenses, and at the meeting last night committees were appointed to complete all necessary preparations.

The Sir Knights throughout the State can rest assured of a hearty reception, and royal entertainment next May.

Railroad Meeting.

A meeting of the stockholders of the Maysville & Big Sandy Railroad Company will be held to-morrow morning at 10 o'clock at the office of the company in this city.

The meeting is called "for the purpose of considering and acting upon the indenture or mortgage or deed of trust to the Union Trust Company, of New York, and the issue of bonds thereunder and the proposed increase of the capital stock of this company."

The Cincinnati Enquirer says as soon as the mortgage referred to—for \$7,500,000—is ratified, the work of construction will be ordered to be completed at once.

Capt. M. B. Brown is again on board the Hattie Brown. The report that he had disposed of his interest to his brother Martin was talked of but not consummated. We are pleased to have the captain in the trade again.—Dover News.

THE following special from Flemingsburg appears in the Louisville Post: "William C. Fitch left home for Vanceburg February 15th, going to Maysville. He was last seen near Maysville just before the boat rounded in, but was not seen to go ashore. His body was discovered below. Indications point to suicide. He was aged twenty-four and married." If Mr. Fitch was drowned as stated, it seems a little singular that nothing is known of the fact here in this city. Perhaps Joe Mulhatton has been visiting Flemingsburg.

Stock and Crops.

Woodward & Harbison sold 460 horses at Lexington last week for \$184,920, an average of \$402 per head.

Lexington parties have bought the three-year-old stallion, Belle Boy, from Senator Stockbridge, of Michigan, for \$35,000.

Over \$276,000 worth of horses have been sold at Lexington by public auction in the last two weeks, besides several thousand dollars worth by private sales.

Mr. Lewis H. Long, of the Lewisburg precinct, reports the growing wheat considerably damaged by the sleet of the past month. The present freeze will no doubt make the damage to the crop much heavier.

Our Germantown correspondent says: "The starch is all out of the collars of our tobacco merchants, and the farmers who failed to sell at the big prices offered are drinking stomach bitters to regain their lost appetites."

Says the Glasgow (Ky.) Times: "In the past week we have asked perhaps a hundred Barren County farmers: 'What are you going to raise the coming year?' The answer invariably is: 'Oh, I am going to put every foot of land in tobacco.' There is every indication that the greatest tobacco crop ever planted will be put in this season. Barley is the favorite kind, but all sorts will be seeded down. It is safe to say that there will be the biggest crop of tobacco ever put in in America will be raised this year, and that there will be a tremendous fall in prices when this enormous crop is put on the market. Our honest opinion is that the farmer who lets tobacco alone this year, and goes in for grain, cattle and hogs is the man who will have the richest bank account next year."

A NICHOLASVILLE special to Courier-Journal says Fleming Phillips, son of Judge W. H. Phillips, a very popular man, is suffering greatly from mental troubles, and lies in a very critical condition. Excessive smoking of cigarettes appears to be the cause. He is a brother of Dr. Phillips, of this city, and is well known here.

The goose bone seems to be a pretty good weather prophet after all. In its predictions for Kentucky's February it says "the middle of the month will be followed by spring-like weather, and the trees will begin to bud, but the spots near the end of the keel indicate a sudden change and stormy weather at the close of the month, bringing March in like a lion."

Fashion Notes.

[New York Commercial Advertiser.]

New bonnet trimmings are distinctly lower and more graceful. Cord and plush edges are far and away better style than scalloped or pivot. Ribbons grow wide and wider, for sashes, reaching the breadth of fourteen inches.

Agrettes reappear upon bonnets, very high and quite thick, but still too flimsy to be objectionable.

A golden broom crossing a silver dust pan is a new brooch that seems appropriate to a house-keeping bride.

Among oxidized silver parasol handles the crab claw design is more novel than beautiful.

Ginghams, with a plain colored stripe alternating with one all-over-dotted embroidery, are more stylish than pretty.

ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the imitations of low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 108 Wall St., New York.

Personal.

Miss Mattie Oldham left on the noon train yesterday to visit relatives at Cincinnati.

Thomas F. Botts, of Flemingsburg, Ky., is visiting his many friends and relatives in this city.

THE dividend declared by the Limestone Building Association and ordered paid this week is about 6 per cent. interest per annum and the monthly dues paid back. The advertisement of last week was an error in this way, that the interest made and monthly dues paid back were added, which would make the per cent. as advertised, and this explanation is made that no one may be misled. Stockholders will receive orders on the Treasurer for the amount of their dividends by calling on the Secretary, at his office, on and after Thursday, March 1st. JOSEPH H. DONOHUE, Sec'y.

NOTES FROM WASHINGTON.

THE MILLS TARIFF BILL PRACTICALLY COMPLETED.

A Representative's Opinion of the Bill.
The Nicaragua Canal Bill passes the Senate—The Presidential Party Arrives Safely in Washington.

WASHINGTON, Feb. 25.—The Mills tariff bill has been completed, practically, and will be laid before the full committee on ways and means to-morrow, barring charges of program not now contemplated. Chairman Mills has notified the Republican members of the committee to this effect. It is expected that the bill will be reported to the house after the meeting to-morrow morning, ordered printed and recommended to the committee.

A final report to the house will likely be made within a week or ten days thereafter, and debate begun at an early day. The time to which debate is to be limited is mentioned casually as between three and four weeks. It is expected that the Randall and Republican tariff bills will make their appearance shortly after the house receives the Mills bill in complete form.

Representative Kelly, of Pennsylvania, when asked this morning if he would express an opinion on the tariff bill, said: "I have but a word to say on this subject and this I would like the United Press to repeat to the country: I can possibly conceive that my colleagues of the committee could be guilty of such gross discourtesy as to consider in any way the most important legislation that could come before the committee without sunning such men of the committee as McKinley, of Ohio; Reed, of Maine; Burrows, of Michigan; Brown, of Indiana, and Kelly, of Pennsylvania, to participate in the consideration. I will need more evidence than simple rumor to convince me that all precedents could be so overridden. I therefore believe that nothing in a tariff measure has been ever thought of by the committee."

The house committee on public lands this morning received a report from Mr. Payson, of Illinois, who was some time ago designated a sub-committee on the bill quitting the title to settlers on the Des Moines river lands in Iowa. Mr. Payson recommends the passage of the bill, which is similar to the one vetoed by President Cleveland.

He addressed the full committee in support of his report for an hour to-day. The full committee will take action at a special meeting of the committee on Wednesday. It is believed the final report will favor the bill.

The Senate.

WASHINGTON, Feb. 25.—After a number of bills and resolutions had been reported from committees, the senate on motion of Mr. Edmunds, resumed consideration of the bill to incorporate the Maritime Canal company, of Nicaragua. The senate passed the Nicaragua canal bill by a vote of 38 to 15. The senate committee on rules has agreed to report a proposed amendment to the rules, making it in order to remove, by a majority vote, the injunction of secrecy from a treaty and consider it in open session. This, it is stated, is to get a public debate on the fisheries treaty, but will apply to all treaties in the future.

The committee on foreign relations have a meeting for the consideration of the fisheries treaty on Wednesday, and has sent for maps and documents giving information on the subject.

The committee on rules will continue discussion of secret session matters, with a view to further publicity to executive business.

The Presidential Party at Home.

WASHINGTON, Feb. 25.—The special train bearing the president and Mrs. Cleveland, Secretary and Mrs. Whitney and Col. and Mrs. Lamont from their southern tour reached the Sixth street station at 3:03 o'clock Sunday morning. The party had not retired and were immediately driven to their respective homes. They were well, but fatigued by their five days' journey. The baggage was loaded down with floral offerings. The journey was a perfect success, and evidently afforded as much pleasure to the people of the towns visited as to the visitors.

THOSE TALLY SHEETS.

Two Rackets in Columbus Saturday—The Trial Postponed.

COLUMBUS, O., Feb. 25.—Two lively rackets, arising from the tally sheet troubles, occurred on the street Saturday afternoon. The first was when R. B. Montgomery accidentally met George Benton and asked him why he had reported that he (Montgomery) was drunk the day before. Benton said he guessed it was true, that he was, and blows exchanged. Both parties were arrested and put under \$10 bail to appear to-day.

A little later, on the same ground, Fred Steube said to Prosecutor Huling: "Mr. Huling, I am tired of being dogged by your detectives, and want you to call them off."

Mr. Huling denied that he had detectives watching Steube, and was told that he lied. Steube viciously assaulted Huling and broke the latter's jaw. He was arrested and gave bail for his appearance this morning.

Owing to his injuries Prosecutor Huling did not appear to-day, and the tally sheet trial was postponed until to-morrow. The physician's certificate said that he could be present to-morrow, and the probabilities are that a temporary prosecutor will be appointed. Judge Thurman made a request for a continuance. The court room was crowded, as it was expected that Judge Pugh would make some reference to Steube's assault upon Huling.

Judge Pugh had Steube brought before him this morning and held for contempt of court. He was brought in by two officers and Helman and Miles, the lawyers. Col. Holmes was appointed prosecutor, and the further hearing will be at 7 a. m. Wednesday. There is an intense feeling against Steube on account of the assault. Nothing else is talked about in Columbus. The feeling is ugly enough to cause more serious trouble.

STILL THE SAME ANSWER.

Blaine Again Says He Does Not Want the Republican Nomination.

NEW YORK, Feb. 25.—The World Sunday contained a long interview with Mr. Blaine, cabled from Florence, in which the Plumed Knight insists on the sincerity of his withdrawal and says that he considers, first, that any man whose name has been associated with a defeat in a presidential campaign owes it to his party not to allow himself to

be renominated; and, secondly, he is unequal to facing the fatigues, worry and excitement of another canvass.

When Mr. Blaine was asked the direct question whether he would, under any circumstances, permit his name to be used again as a candidate, he replied in the most emphatic negative, but then added:

"I do not wish to make any new affirmations upon the subject. I have said all that I wish to say upon this subject in that letter. That letter, as you must know, was not a haphazard, off-hand affair. It was the result of much deliberation and careful thought. You will remember that I told you in Paris last December that I had no intention of being a candidate again, and that I had practically made up my mind at that time to forbid the use of my name in the approaching convention."

Mr. Blaine stated that he intends to return to the United States about the last of June. He further said:

"You have no idea what a relief it is to me to think that I am now out of the canvass, and that when I go back to New York in the summer, that I shall not be going back there to face reception after reception, and to enter into the turmoil and excitement of a political canvass. I can now go back quietly, after the convention has once decided the result, and enjoy my own life in my own way, free, I hope, from further criticism or comment."

Suffering in the Stricken Villages.

Mr. VERNON, Ill., Feb. 25.—The weather continues extremely cold. The homeless have suffered greatly. The finance committee has issued a card to the general public, stating that all subscriptions received will be devoted to the purchase of building material, household furniture and other articles necessary to provide the destitute and needy with shelter. Up to date the committee has received a sufficient quantity of clothes and food to supply all demands.

De Camp Again Arrested.

CINCINNATI, Feb. 25.—John R. DeCamp was brought into court on a writ of capias by Deputy Marshal McHugh this afternoon. He is required to give another bond to the amount of \$15,000, and says he will be able to give bondsmen. Fletcher DeCamp, one of his old bondsmen, is in New York.

The Weather.

WASHINGTON, Feb. 25.—Indications—Fair weather; preceded by light local snows on the lakes; colder, followed by rising temperature; light to fresh westerly winds.

FINANCE AND COMMERCE.

Quotations for the Money, Stock, Produce and Cattle Market for Feb. 27.

NEW YORK—Money 2 1/2 per cent. Exchange steady. Government bonds.

Currency rates, 121 bid; four coupons, 125 1/2 bid; four-and-a-half, 107 1/2 bid.

The stock market opened weak and some selling, said to be for the account of London parties, prices declined 1/4 per cent. by noon. A weakening factor in the market is the high rates for exchange, which are almost up to gold shipping point. At the present writing the market is a little steadier, but prices show no recovery.
